

Scholarship Program

Purpose

The purpose of the Coalition for Physician Well-Being Scholarship Program is to increase accessibility for current GME residents and fellows to attend the national annual conference. This Program provides an opportunity to those who might not otherwise be able to participate. Our conference focuses on educating and providing resources on how to partner with hospital and medical group leaders. The conference also identifies programs and processes to enhance the well-being of clinicians.

Description

The scholarship program was recently established and funded by donations to support the mission and vision of The Coalition for Physician Well-Being. This scholarship was created with the hope that physicians early on in their career can walk away with life-long lessons that will prolong and enhance their personal career goals, and share the benefits of collaboration with leaders to make necessary changes.

Scholarships will support the attendance to our in-person conference, July 27 – 29, 2022 in Denver, Colorado.

The scholarship will offer the recipient the following:
